UNDERTAKING BY THE HEAD OF THE INSTITUTION

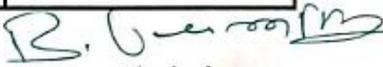

Programme: Bachelor of Computer Application.

Essential Documents: **Internal Quality Assurance Cell (IQAC).**

Quality assurance cell is a by-product of ongoing efforts to define the objectives of an institution, to have a work plan to achieve them and to specify the checks and balances to evaluate the degree to which each of the tasks is fulfilled. Hence devotion and commitment to improvement rather than mere institutional control is the basis for devising procedures and instruments for assuring quality. The IQAC has to ensure that whatever is done in the institution for "education" is done efficiently and effectively with high standards. In order to do this, the IQAC will have to first establish procedures and modalities to collect data and information on various aspects of institutional functioning.

Composition of Internal Quality Assurance Cell.
